

(Optional) Deploy the application

Overview

In this section, you will deploy your Flappy Kiro game to production with proper hosting, performance optimization, and game analytics.

Note

For guided AWS deployment assistance, refer to the [Kiro powers](#) section to install the AWS infrastructure power for CDK and CloudFormation deployment.

Note

If you are outside an AWS event, remove any resources deployed outside your local environment during the workshop to avoid any charges.

Prepare for deployment

In the chat panel, ask Kiro to prepare your game for production.

► **Example prompts**

Explore AWS deployment options

Ask Kiro about different ways to deploy your game on AWS.

► **Example prompts**

Deploy to AWS

Note

If you are in an AWS guided event, link your terminal to the sandbox AWS account.

In the Workshop Studio navigation panel, choose **Get AWS CLI Credentials**. Choose your operating system, and select the **Copy** icon. Paste the values into your Kiro terminal.

AWS account access

These environment variables need to be set in your terminal session to run AWS CLI commands against your temporary AWS account. Learn more about the AWS CLI in the [User Guide Version 2](#).

AWS CLI credentials

Linux or macOS (bash)

Linux or macOS (fish)

Windows (PowerShell)

Windows (cmd)

```
export AWS_DEFAULT_REGION="us-east-1"
export AWS_ACCESS_KEY_ID=""
export AWS_SECRET_ACCESS_KEY=""
export AWS_SESSION_TOKEN=""
```

Note Only use `us-east-1` as your Region, unless otherwise directed by the event operator. You can optionally set the `AWS_DEFAULT_REGION` environment variable to one of the allowed Regions to set the default Region for CLI commands. This value can be overridden with the `--region` command line parameter.

Close

Ask Kiro to deploy your game to AWS.

► **Example prompts**

Deploy game frontend to Vercel or Netlify

Ask Kiro to deploy your Flappy Kiro to Vercel or Netlify.

► **Example prompts**

Deploy game backend

Ask Kiro to deploy score tracking and leaderboard services.

► **Example prompts**
